Need to test another method, evaluate your staff?

Order **additional test samples** (parcel in its entirety): **425 € excl. VAT** (excluding transport costs)

Parameters to analyse

(implemented in each proficiency test)

22M54.1 - Natural water - sent in April 2022 - Refrigerated parcel

microcystin-LR, microcystin-RR, microcystin-YR

22M54.2 - Natural water - sent in August 2022 - Refrigerated parcel

microcystin-LR, microcystin-RR, microcystin-YR

PARTICULARITIES

Microcystins' analyses can be carried out by ELISA test on these samples. However, the observed results are not going to be statistically processed; only an overview will be presented in the test report (no z-scores calculation for the analyses by ELISA test).
